

RAHUL MITRA

CIVIC TECH SOLUTION ARCHITECT PROFILE

Singapore | mitrarahul2002@gmail.com | www.linkedin.com/in/rahulmitra-dev | github.com/Rah-Rah-Mitra | rahul-mitra.vercel.app

PROFILE SUMMARY

Solution architect and full-stack engineer building technology for social good. Delivers production civic and healthcare systems end-to-end - cloud architecture, Singpass-integrated platforms, GIS, and applied AI - turning community and stakeholder needs into deployed software that reaches vulnerable groups.

EDUCATION

National University of Singapore - Bachelor of Engineering, Industrial Systems Engineering; Second Major in Computer Science; Minor in Mathematics - Relevant coursework: Software Engineering; Artificial Intelligence; Simulation; Statistics for Engineering Applications; Operations Research; 3D Computer Vision	Aug 2023 - Jul 2027
Anderson Serangoon Junior College - Singapore-Cambridge GCE A-Level	Feb 2019 - Dec 2020

WORK AND INTERNSHIP EXPERIENCE

Software Engineer (Citizen Developer), People's Association - Built an end-to-end digital garden-plot balloting platform (admin and public-facing frontends, backend, GIS mapping, and deployment), now production-ready for national rollout across Singapore. - Integrated Singpass Login (OIDC) and Myinfo for passwordless authentication and consent-based retrieval of verified identity and registered address, automating resident eligibility checks. - Led deployment planning, multi-repo coordination, and technical project management across product, engineering, and operations stakeholders; awarded the S\$20,000 Sparks Community Innovation Fund.	Sep 2025 - Present
Operational AI Systems & Data Engineer (Contract), Abbott Laboratories Singapore Pte Ltd - Build AI-enabled systems and data workflows for process improvement, manufacturing analytics, operational decision support, and supply-chain automation. - Strengthen monitoring and process structure across healthcare supply chains with AI, helping ensure reliable product availability for vulnerable patient groups.	Jun 2026 - Present
Data Analytics and Project/Product Management Intern, Abbott Laboratories Singapore Pte Ltd - Built a Python digital twin simulation and constraint-programming optimizer for an NP-hard hybrid flow shop scheduling problem, translating production complexity into decision-ready schedules. - Architected an Azure-based web simulator for Advanced Process Control systems across global manufacturing plants, using Docker containerization and Bitbucket CI/CD for repeatable releases.	Jan 2026 - Jun 2026

SELECTED PROJECTS AND COMPETITIONS

AgeWellLah.AI - NUS HealthHack 2025 - Engineered an elderly-care triage chatbot using OpenAI GPT-4, InterSystems IRIS Vector Search, Flask, OAuth2-secured patient profiles, and PDPA-aware design choices.	2025
Volt Pulse SG - SMU Hack For Cities Finalist - Reached Top 8 of 50+ teams with an agentic AI platform for HDB energy-cost tracking using SEALION embeddings, Supabase vector search, RRF routing, and scheduler-agent planning.	Jan 2026
EthosLens - LifeHack 2025 - Developed backend workflows for an AI research engine that scores brand ethics and sustainability practices using FastAPI, Python, LangChain, and automated evidence retrieval.	2025
Azure APC Web Simulator - Designed a cloud-hosted process-control simulation surface with Azure deployment, Docker packaging, CI/CD pipelines, and manufacturing stakeholder feedback loops.	2026

TECHNICAL SKILLS AND CERTIFICATIONS

Skills: Solution Architecture; Cloud (Azure, Docker, CI/CD); Full-Stack (React, TypeScript, FastAPI, Flask); Singpass Login & Myinfo (OIDC); RAG & AI Agents; GIS Mapping; API Design; Stakeholder Discovery; Accessibility; Rapid Prototyping.
- NVIDIA Disaster Risk Monitoring Using Satellite Imagery - geospatial AI, U-Net, satellite data, GPU workflows.
- Docker for the Absolute Beginner - container fundamentals and deployment workflows.

CO-CURRICULAR AND COMMUNITY

Elderly Care Volunteer, NTUC Health Active Ageing Centre - Sustained a year of weekly senior engagement, deepening empathy for accessibility, healthcare, and human-centered community product design.	Sep 2025 - Present
Astronomy Head and Robotics Member, STEM Inc. (ASRJC) - Led astronomy outreach, competed in the Singapore Astronomical Olympiad, and built autonomous robotics systems for national competitions.	2019 - 2020
