

Certificate of Completion

Presented to

Rahul Mitra -

For the completion of

Deep Learning for Python Developers

Completed on

12th March, 2023

Provided by
Packt

Certificate ID
80178705

Powered by

Course Transcript

Deep Learning for Python Developers

Learning Resource	Completion Date
Course Overview [Infinity]	27 Jan 2023
Course Code Files [Infinity]	07 Mar 2023
Fundamentals of Neural Networks [Infinity]	07 Mar 2023
Training Deep Neural Networks [Infinity]	08 Mar 2023
Using Forward Propagation, Backprop, and SGD [Infinity]	07 Mar 2023
Logistic Regression with a Neural Network Mindset [Infinity]	08 Mar 2023
Convolutional Neural Network Handwriting Recognition [Infinity]	08 Mar 2023
Working with MxNet and Gluon [Infinity]	08 Mar 2023
Defining and Training Neural Networks in MxNet/Gluon [Infinity]	08 Mar 2023
Working with TensorFlow and Keras [Infinity]	08 Mar 2023
Defining and Training Neural Networks in Keras/TensorFlow [Infinity]	09 Mar 2023
Comparing the Two Frameworks [Infinity]	09 Mar 2023
Mini Project - CIFAR Classification [Infinity]	09 Mar 2023
Weight Initialization for Deep Networks [Infinity]	09 Mar 2023
Regularization and Dropout	09 Mar 2023

[Infinity]

Normalizing and Vanishing/Exploding Gradients

10 Mar 2023

[Infinity]

Mini Project – SIGNS Dataset

10 Mar 2023

[Infinity]

Understanding Stochastic Gradient Descent

10 Mar 2023

[Infinity]

Adaptive Learning Algorithms - RMSProp and Adam

10 Mar 2023

[Infinity]

Mini Project - Language Modeling

10 Mar 2023

[Infinity]

Hyperparameters

11 Mar 2023

[Infinity]

Tuning Hyperparameters - Grid Search

11 Mar 2023

[Infinity]

Tuning Hyperparameters - Random Search

11 Mar 2023

[Infinity]

Mini Project - Music Synthesis

11 Mar 2023

[Infinity]
