

Certificate of Completion

Presented to

Rahul Mitra -

For the completion of

**Practical Reinforcement Learning - Agents and
Environments**

Completed on

14th March, 2023

Course Transcript

Practical Reinforcement Learning - Agents and Environments

Learning Resource	Completion Date
1.1 The Course Overview [Infinity]	11 Mar 2023
1.2 Install RStudio [Infinity]	12 Mar 2023
1.3 Install Python [Infinity]	12 Mar 2023
1.4 Launch Jupyter Notebook [Infinity]	13 Mar 2023
2.1 Learning Type Distinctions [Infinity]	13 Mar 2023
2.2 Get Started with Reinforcement Learning [Infinity]	13 Mar 2023
2.3 Real-world Reinforcement Learning Examples [Infinity]	13 Mar 2023
2.4 Key Terms in Reinforcement Learning [Infinity]	13 Mar 2023
3.1 OpenAI Gym [Infinity]	13 Mar 2023
3.2 Monte Carlo Method [Infinity]	13 Mar 2023
3.3 Monte Carlo Method in Python [Infinity]	13 Mar 2023
3.4 Monte Carlo Method in R [Infinity]	13 Mar 2023
3.5 Practical Reinforcement Learning in OpenAI Gym [Infinity]	13 Mar 2023
4.1 Markov Decision Process Concepts [Infinity]	13 Mar 2023

4.2 Python MDP Toolbox [Infinity]	14 Mar 2023
4.3 Value and Policy Iteration in Python [Infinity]	14 Mar 2023
4.4 MDP Toolbox in R [Infinity]	14 Mar 2023
4.5 Value Iteration and Policy Iteration in R [Infinity]	14 Mar 2023
5.1 Temporal Difference Learning [Infinity]	14 Mar 2023
5.2 Temporal Difference Learning in Python [Infinity]	14 Mar 2023
5.3 Temporal Difference Learning in R [Infinity]	14 Mar 2023
